

Friday 26th June

Good Morning Class 5!

Mr Ruffle sent an update to your parents yesterday to say that he is very much hoping to be able **to let everybody back to school** for a one-off session during the last week of term. This is such fantastic news. Of course, it all depends on how things are going with coronavirus so we all need to be continuing to do our bit with hand-washing and social distancing.

I really hope that this exciting news motivates you to **keep on going** for just another couple of weeks with your home learning because we have to get our Maths No Problem workbook finished and we can just squeeze it in before the holidays! I know it's hard with this hot weather at the moment, but I think today should be a little cooler.

Did you see the daily Sport Week vlog? If you liked the dancing, tune in to **Learners of the Week – LIVE! at 1.30 today** (there may be some more).

Every Day Counts

The final one for this week – number **26**. I like this date as it is my birthday! (not today, the 26th of next month).

Maths No Problem – Chapter 13 Lesson 5

All of the slides for this lesson are on Classroom. You should work through these (including the guided practice), then do the worksheet for this lesson in your usual book. Today you are working out the **capacity of rectangular boxes**.

Reading

Your final chapter of 'Evie & the Animals' for this week is online. I am aiming for us to finish the book by the summer holidays so will do some maths over the weekend and work out if I need to read more than one chapter a day from now on! You never know, I may even be able to read the last couple of chapters to you in person!

English

Please finish your story today and don't forget the evaluation at the end of your booklet!

Project

If you've had a go at the Gold Coast quiz, I have posted the answers into the assignment on Google Classroom so that you can check. Looking at the results, you've done a great job with many people getting full marks! Next week we will move on to another coastline as our focus – but this time it will be one a little closer to home...

Have a great day and enjoyable weekend everyone!

Mr Croutear
