

Wednesday 1st July

Good Morning Class 5!

I hope your week is going well. Remember that we have **a live worship today at 2.25** – even if you haven't tuned in to one yet, why not give it a go? It's a great way to stay in touch and feel connected, especially for those of you have been away from school for so many weeks. My next batch of Silver Star badges and postcards are being sent out today!

Today I am meeting with your new Year 6 teacher, Miss Field, to tell her all about the class. She will be recording a special video which you will get to see before the holidays, introducing herself and telling you a bit about what you have to look forward to in Year 6.

Here is your Wednesday learning:

Every Day Counts

Number 1 – hooray, it is one of the easiest EDCs!

Maths No Problem – Chapter 13 Lesson 8

Another lesson which focuses on converting between metric and imperial units of measurement for volume.

English

Today it is pages 7-9 of your 'Wizards' Talk4Writing booklet, in which you are writing some sentences, exploring more vocabulary and playing a word game.

Reading

The next chapter of '*Evie & the Animals*' is ready! It's a long one today.

Coast to Coast

Earlier in the week I asked you to look through the PowerPoint on local coastal features. Thanks to Charlie T & Oliver for sharing your learning and memories of visits with me. Today, read through the information on coastal defences, which are so important in preserving the wonderful Jurassic Coast. If you are feeling creative and have a few arts & craft supplies handy, you could even construct your own coastal line with coastal features! Which coastal defences would you include?

Have a great day!

Mr Croutear
